STUDENT AGREEMENT FOR ACCEPTABLE USE OF THE ELECTRONIC COMMUNICATIONS SYSTEM

You are being given access to the District's electronic communications system. Through this system, you will be able to communicate with other schools, colleges, organizations, and people around the world through the Internet and other electronic information systems/networks. Users have access to many resources including those available through district membership in the Texas Library Connection consortium.

With this educational opportunity also comes responsibility. It is important that you read the District policy, administrative regulations, and agreement form and ask questions if you need help in understanding them. Internet use is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges.

Please note that the Internet is a network of many types of communication and information networks. It is possible that you may run across areas of adult rated content and some material you (or your parents) might find objectionable. While the District will take reasonable steps to restrict access to such material, it is not possible for us to absolutely prevent such access. It will be your responsibility to follow the rules for appropriate use.

RULES FOR APPROPRIATE USE

- The Internet is to be used only for identified educational purposes.
- You will be held responsible at all times for the proper use of the Internet and Intranet as defined in the district's Acceptable Use Policy; and the District may suspend or revoke your access if you violate the rules.
- Remember that people who receive e-mail from you with a school address might think your message represents the school's point of view. People who operate the system do have access to all mail.
- The librarian will maintain an Internet User's Log when computers are used in the library.

INAPPROPRIATE USES

- Using the system for any illegal purpose.
- Using an account other than your own
- Do not use the network in such a way that would disrupt the use of the network by other users.
- Posting personal information about yourself or others (such as addresses and phone numbers).
- Downloading from any source, or using copyrighted information without permission from the copyright holder and school administration.
- Some information systems software is licensed to La Grange ISD from companies. La Grange ISD does not own this software or related documentation. Any copyrighted software is not to be copied from, into, or by using La Grange ISD equipment, except as permitted by law or license agreement with the owner of the copyright.
- Hate mail, harassment, discriminatory remarks, and other antisocial behaviors are prohibited from being posted or printed from the network. Therefore, messages should not contain expression of bigotry or hate, profanity, obscene comments, or sexually explicit material.
- Wasting school resources through the improper use of the computer system.
- Gaining unauthorized access to restricted information or resources.
- Participating in chat rooms.
- Playing games.
- Engaging in any activity deemed inappropriate by principal or designee.
- Impersonation of any person or communication under a false or unauthorized name is prohibited.
- Advertising or soliciting on school computers is prohibited.

CONSEQUENCES FOR INAPPROPRIATE USE

- Suspension of access to the system.
- Revocation of the access to the system.
- Disciplinary or legal action, in accordance with the Student Code of Conduct and applicable laws.
- Users may be monitored through electronic means or through teacher/staff observation. If violations are discovered, the matter will be immediately referred to the building principal.
- Users are expected to abide by the generally accepted rules of network etiquette.
- La Grange ISD makes no warranties of any kind, whether expressed or implied, for the service it is providing. La Grange ISD will not be responsible for any damages suffered. This includes loss of data resulting from delays, no deliveries, and omissions. Use of any information obtained via the Internet is at user's own risk. La Grange ISD specifically denies any responsibility for the accuracy of quality of information obtained through its services.
- Vandalizing and "hacking" may result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet, or any of the above listed agencies or other networks that are connected to the Internet. This includes, but is not limited to, the uploading of creation of computer viruses. Loopholes in information security systems or knowledge of a special password are not to be used to damage information systems, take resources from another user, gain access to systems, or use systems for which the proper authorization has not been given.
- The student agreement must be signed each year.
